2000 EAC NATIONAL CONVENTION

Welcome to Cape Canaveral and the Annual Convention for EAC, year 2000. We wish you a pleasant stay, and hope that everyone takes home good memories, and perhaps some new copper acquisitions. A different wrinkle this year will be early lot viewing for the annual sale. Lots will be shown starting on Wednesday morning. A nice feature this year will be a showing of 1794 large cents, furnished by a number of our members. Jon Warshawsky is putting this together. Sort of a modified whist match. The members participating are bringing ten or more of their best 94s' to be included in the display.

HALF CENTS

- 605.** 1795 C-1 R2 Fair-2. Lettered Edge. The obverse is near G4 with LIBERTY clear and the complete date readable, although a bit weak. The reverse is weaker, perhaps a third of the legend can be made out. Glossy steel brown with darker olive toning in protected areas. No problems, just wear. Average.
- 606.** 1795 C-6a R2 Fair-2. Plain Edge. LIBERTY is complete but only the 9 in the date remains visible. The reverse is much nicer, the sharpness at least G6 and the legend complete. The planchet is slightly bent and there are some shallow planchet voids in the date area. Glossy chocolate brown. Average-.
- 607.** Pair of 1797 C-1 R1 Half Cents. Both net Fair-2. One is early die state with a complete date but minor marks. Average-. The second is a late die state with a complete date and no notable marks, just honest wear. Average+. Both glossy brown. Lot of 2 coins.

612. 1804 C-13 R1 AG3. Plain 4, Stemless. Glossy medium brown. Relatively free of marks for the grade, but there are some curious impressions at the rim over BERTY, and these may be an undertype. I can't be sure, but there's no time to use a "Lifeline." Average.

613. 1810 C-1 R2 F12. Nice glossy chocolate brown. A few minor nicks on both sides, otherwise near choice. MDS. Average+.

614. 1811 C-2 R3 AG3. Recolored glossy dark chocolate and steel. A couple minor rim nicks but the planchet is nice and smooth. Just honest wear. The top two thirds of the date is clear. Average.

Lot of 3 coins.

622. 1857 C-1 R2 F12. Sharpness VF20 but nicely recolored glossy chocolate and steel brown. The only marks are some faint hairlines over CENT and minor nicks on both sides. Average.

623. 1804 Half Cent with Plain 4 rolled into a souvenir for the 1994 Detroit ANA Convention. The date is clear and it looks as if a rather nice half cent was consumed. "Mint State," or at least pretty much the way it left the rolling machine.

624. 1853 Half Cent rolled into a souvenir for the 1994 Detroit ANA Convention. The date is clear and portions of the reverse are also visible on this one. The rolled impression celebrating the convention is different from the one on the 1804 above. Also in "Mint State."

LARGE CENTS

625. 1793 S-10 R4 Fair-2. The obverse is a bit nicer with the date and LIBERTY faint but readable. The reverse shows only minor portions of the legend, much of it missing due to planchet voids rather than wear. The obverse is slightly rough, the reverse moderately so.

Medium brown and chocolate. There is a mint-made clip in the planchet behind the head and at D STA on the reverse. Clips of this size are very rare on 1793 cents. Scudzy, but not as bad as that label might imply.

626. 1793 S-11b R4 Basal State-1. Counterstamped "H.REES" on the obverse. The head and most of LIBERTY can still be made out, but the date is gone and the reverse is nearly slick. Just honest wear and nearly choice for the grade. The counterstamp is complete and clear, although the bottom of the H is a bit weak. The double leaf on the edge device is clear, so the attribution is easy. Glossy medium brown with some darker olive in protected areas. Average+.

627. 1794 S-22 R1 AG3+. The obverse is VG7 with a pair of rim bumps and a bit of microscopic roughness in the field before the face. The reverse is weaker, the wreath and ONE CENT still visible but most of the legend worn away. In addition, there is a rim dent at K-10 and a few patches of minor pitting outside the wreath, strongest at the second A in AMERICA. Otherwise the planchet is a nice smooth glossy light brown and reddish chocolate. The date and LIBERTY are bold. EDS. Average.

628. 1794 S-22 R1 AG3. The obverse is VG8 but lightly corroded, mostly in the right field where there is a light covering of verdigris. The reverse is weaker, as usual, with perhaps a third of the legend still visible. Dark olive. The date and LIBERTY are clear. MDS. Scudzy or nearly so.

629. 1794 S-22 R1 AG3. The obverse is G6 without any notable defects, the date and LIBERTY clear. The reverse is nearly slick, just a few of the designs still visible. Steel brown and chocolate. No defects, just wear. MDS. Average.

630. 1794 S-22 R1 AG3. Sharpness VG8 but the surfaces are slightly rough, mostly in the protected areas while the highpoints are fairly smooth. The date and legends are weak but mostly readable. Golden tan highpoints with darker olive toning in the protected areas. Early die state, the reverse die mounds just starting to form. Average-.

631. 1794 S-44 R1 G4. Sharpness VG10 with a strong rim dent at RTY, another under the fraction, plus a couple other minor marks on both sides. Rather glossy reddish dark chocolate brown with golden tan toning on the highpoints accenting the details. MDS. Below average, near scudzy.

632. Group of Five 1794 Cents. S-28 AG3. Sharper with minor corrosion. Date readable but weak. Brown and chocolate. Below average. S-30 Fair-2. Sharpness G6 with a deep dig under UN creating a mound under L in LIBERTY. Date and LIBERTY bold. Medium brown. Scudzy. S-42 Fair-2. A few points sharper with an X lightly scratched across the obverse and a few small pits on the reverse. The date is weak, nearly gone. EDS. Nice glossy chocolate brown and olive. Average-. S-58 Fair-2. A bit sharper but slightly rough. The date is weak but visible, and about half the reverse legend readable. M-LDS, the crack at UNIT strong. Fairly glossy brown and chocolate. Scudzy. S-61 Fair-2+. Slightly glossy steel brown. No notable defects, just honest wear. The date is readable but most of the reverse legend is gone. Average. Lot of 5 coins.

633. 1795 S-77 R3+ VG7. Sharpness VF20 but uniformly granular. Dark steel brown and chocolate. Sharply struck EDS and free of contact marks or verdigris. Nice details but the surfaces are scudzy.

634. 1796 S-82 R5 G5. Sharpness VG10 but the planchet is finely granular. Dark chocolate brown rubbed to a lighter brown and tan on some highpoints. The date is bold and legends complete. Scudzy or nearly so.

- 635.** 1796 S-88 R4 AG3. Sharpness F15 but the planchet is dull and very granular. In fact, this cent may have been nearly new when it was lost in a hostile environment. The only mark is a light scrape on the rim over TATE. There is a tiny clip in the planchet, as minted, at the top of the cap. The date and legends are still clear. Matte uniform dark chocolate and steel. Scudzy.
- 636.** 1796 S-89 R3+ G5. Sharpness at least VF20 but uniformly granular. The only mark is a light scrape on the cap extending into the hair. EDS. The date and details are very sharp, and this is another cent that may have been nearly new when it was lost. Too bad, because it's scudzy now.
- 637.** Trio of 1796 Cents. S-87 Fair-2+. Glossy chocolate brown. Slightly sharper with a few dull rim nicks on both sides. The 17 is clear but 96 is weak due to the usual swelling in that area. LDS. Average. S-91 Basal State-1. The obverse is at least AG3 with a clear date and LIBERTY readable, but the reverse is nearly slick. Reddish chocolate brown and steel. Average. S-108 Fair-2. Draped Bust. Glossy chocolate brown and olive. Some minor roughness but no notable marks. The date and LIBERTY are readable but the reverse is weaker, about half the legend barely readable. Average. Lot of 3 coins.
- 638.** 1797 S-131 R2+ G5. Stemless Wreath. Glossy steel brown and chocolate. Both sides show some minor nicks and a light rim bruise, but not enough to reduce the grade. The date is clear. The reverse is unevenly struck, the left half strong and the right half weak. The stemless feature is clear. Average.
- 639.** 1797 S-131 R2+ G4. Stemless Wreath. Sharpness VG7 but the surfaces are dull and uniformly granular. The only mark is a rim nick at the first T in STATES. The date is bold and stemless feature clear. Scudzy.
- 640.** Trio of 1797 Cents. S-120b R2 AG3. Grippled Edge. Slightly sharper but finely granular. The date and LIBERTY are readable, as is most of the reverse legend. Dark steel brown. Scudzy. S-130 R2 AG3. Sharpness VG10 with a triangle scratched into the portrait and a few patches of light porosity. Dark chocolate and olive brown. The date is bold and most of the legend clear. Scudzy. S-137 R2 Fair-2. Slightly sharper with fine pinscratches on both sides. The date is readable as is about a third of the legend. Glossy chocolate brown. Below average, near scudzy. Lot of 3 coins.
- 641.** Pair of 1797 Cents. S-134 R4 AG3. The obverse is G5 but the reverse is weaker, around Fair-2. The date is bold. Glossy chocolate brown. Average+. S-136 R3- G4. Slightly sharper with microscopic roughness covering the planchet. The date is clear and legends all readable, although portions are weak. Dark chocolate with lighter brown highpoints. Average-. Lot of 2 coins.
- 642.** 1798 S-156 R5+ Basal State-1. Choice glossy chocolate brown with a smooth planchet but extensive wear. The only marks, and they are significant, are a dull dent on the shoulder over the date and a deep dig in the center of the obverse. The date is mostly bold, although the bottoms of the 17 are gone, and portions of the portrait are visible. Everything else is gone and the reverse is virtually slick. Fortunately the date position is diagnostic for this rare variety. Average.
- 643.** 1798 S-161 R2- VG8. A couple points sharper with traces of microscopic roughness on both sides and a small dig under the R in AMERICA. Rather glossy dark olive. EDS. Average.
- 644.** 1798 S-179 R3 G5. Sharpness VG7 but slightly bent and there are traces of minor roughness on both sides. The date is clear and legends all readable. Glossy dark chocolate. Average.

645. 1798 S-187 R1 G6. A couple points sharper with a pair of rim nicks under the date and a few others on the reverse. Bold date and clear legends. Glossy dark steel brown. LDS. Average.

646. Group of Four 1798 Cents. All Style I Hair. S-148 R2 AG3. Slightly sharper but dull and covered with micro granularity. Date and legends all readable. Dark olive and steel. Scudzy. The date is a bit weak but the legends are mostly clear. Average+. S-181 R3 Fair-2. Sharpness at least VG8 but bent with some small digs. Date and legends clear. Glossy chocolate brown. Scudzy. S-186 R2 AG3. A point or two sharper but lightly granular with a few hairline scratches. Everything is legible, although portions are weak. Below average, near scudzy. S-187 R1 G4. A couple points sharper with a few light nicks on the portrait and some rim nicks on the reverse. Nice glossy chocolate brown. Date and legends clear. Average. Lot of 7 coins.

Couple points sharper, the surfaces very slightly rough. Overdate and legends mostly clear. Rather glossy dark chocolate. Below average, near scudzy. S-196 R1 G4. Sharpness G6 with some very fine porosity on the obverse and a pit mark over the bust tip. The reverse is mostly nice and smooth. Fairly glossy dark chocolate and steel. Date and legends all clear. Average-. Lot of 3 coins.

649. 1800 S-197 R1 G5. Couple points sharper with some microscopic roughness. No distracting marks. Rather glossy olive brown with lighter brown highpoints. Date and legends clear. Average.

650. 1800 S-199 R4 G6. Slightly sharper but recolored glossy chocolate brown with some golden tan on the obverse highpoints. A light rim bruise left of the date and a few tiny nicks on both sides, none serious. MDS. Bold date and clear legends. Average.

651. 1800 S-203 R3- G5. Glossy dark chocolate brown. A bit of microscopic roughness in the field before the face, but overall nice for the grade. Average, maybe slightly better.

652. 1800 S-206 R3+ AG3. Glossy dark chocolate brown and steel with some lighter brown in protected areas. Slightly bent but a minimum of marks for the grade. LDS. Average.

653. 1800 S-207 R3+ G6. Sharpness VF20 but the obverse is moderately porous, the reverse lightly so. No contact marks. Steel brown and chocolate. M-LDS. Lots of detail but still rather scudzy.

654. 1800 S-209 R3 VG7. Slightly sharper but nicely recolored glossy steel brown and chocolate with a few faint hairlines remaining from the old cleaning. Strong date and legends. Average.

655. 1800 S-212 R3- G4. Slightly sharper with a rim bump left of the lower curls and a short scratch over the shoulder. Glossy dark chocolate brown. Date and legends all readable. Average.

656. Group of Four 1800 Cents. S-199 R4 Fair-2. Finely porous obverse, the reverse mostly smooth. A few hairline scratches on both sides. Date and at least a third of the legend readable. Chocolate brown. Average-. S-200 R3 Basal State-1. Close to Fair-2, but who cares. Nice glossy medium brown. The 18 is weak but 00 clear, and about a quarter of the legend remains. Above average for the grade. S-205 R4 G4. A point sharper with a few tiny specks of verdigris on the reverse. Fairly glossy dark steel, possibly recolored. The 18 is weak but 00 clear, as are the legends. Average-. S-211 R3- G4. A couple points sharper with a deep, old scratch down the face. Otherwise nice. Glossy chocolate brown. Bold date and complete legends. LDS. Average-. Lot of 4 coins.

657. 1801 S-213 R3 VG8. Perhaps a bit sharper but a dull rim nick left of the hair ribbon keeps it down. A few tiny rim nicks on both sides are the only other marks. Fairly glossy steel brown and chocolate. MDS. Average.

658. 1801 S-213 R3 G4. Nice glossy chocolate brown. A tiny mark on the shoulder and a few trivial nicks here and there, but overall above average for this grade. LDS. Clear date and legends. Average+.

659. 1801 S-216 R1 G5. Slightly sharper with a few old, light scratches in the field before the face. Glossy dark chocolate. LDS. Date and legends clear. Average.

660. 1801 S-221 R2 G6. Corrected Fraction 100/000. Sharpness VG8 with very lightly corroded surfaces and a couple traces of verdigris in protected areas. Free of any notable signs of contact. Minor marks, nothing serious. The date is nearly full but most of the reverse is gone. Average. S-223 R1 AG3. Error Fraction 1/000. Sharpness VG with some nicks and rim dents on both sides plus a few patches of light roughness. Still a rather decent glossy medium brown and chocolate. The date is strong and fraction complete. Scudzy. Lot of 3 coins.

663. 1802 S-228 R2 G5. Error Fraction 1/000. A couple points sharper with slightly rough surfaces. Olive brown and reddish chocolate with a bit of natural gloss in spite of the micro roughness. Date and legends all readable, including the error fraction. Average or slightly below.

664. 1802 S-233 R2+ VG8. Glossy dark olive and steel brown. Smooth surfaces, just a couple trivial ticks on both sides. Average.

665. 1802 S-233 R2+ AG3+. Double Struck Reverse. Sharpness G6 or a bit better but the surfaces are uniformly granular and there are a couple short, light scratches on the obverse. The date and legends are readable. The reverse is double struck with an offset of about .5mm.

The doubling is too strong and widely separated to attribute it to simple die bounce, but the obverse shows no evidence of doubling. Go figure. EDS. Below average, not quite scudzy.

666. 1802 S-235 R3+ VG7. Glossy chocolate brown. Sharpness might be a point better but there are too many tiny marks to justify a higher grade, although it is close. EDS. Average+.

669. 1802 S-237 R2 G5. Nice glossy chocolate brown. Worn into the legend at MERICA and the fraction, but everything else is clear. No notable marks. Average.

670. 1802 S-238 R4 AG3. The obverse is a bit weaker, the reverse much sharper, about VG8. The obverse is covered with light pitting while the reverse has just a couple patches of light roughness. The date and LIBERTY are mostly gone. Chocolate brown. Very rare terminal die state with a large cud break joining TATE to the rim. Overall scudzy, but the all-important reverse is closer to average and the cud is strong.

671. 1802 S-240 R3+ G5. Slightly sharper but recolored glossy steel brown. No notable marks. MDS. Bold date and legends clear. Average.

672. Group of Four 1802 Cents. S-225 R2 G4. Couple points sharper with a few minor nicks and a tiny rim bruise. Decent glossy chocolate brown. LDS. Average. S-227 R3- AG3+. No problems, just worn.
